

URGES CARE IN USE OF MAILS

Postmaster Complains People Sending Things of Unusual Size.

Postal officials here have called attention to the fact that many persons and concerns are mailing envelopes, folders, cards and other matter of such size and shape as to cause serious difficulty in handling the mail. Although past requests from the department have resulted in an improvement in this matter, much is still presented which causes difficulty.

In some cases the objectionable matter is extremely large or very small. In others it is rectangular or irregular in shape. In many cases it is impossible to use the canceling machine for the postage and the employees are forced to seek out such packages, envelopes and cards and cancel the postage by hand, resulting in a loss of time and labor.

The irregular sizes and shapes also result in mutilation of the matter at times. All of the outgoing mail is made into packages or "bins" governed by the destination. Owing to this fact, irregular sized and shaped matter is bent, twisted and broken, despite the care of the employees.

Another complaint of the postal department is the use of such dark colored matter that the legibility of the address is often entirely lost. As a result of these objections postmaster E. A. Shelton has again issued an urgent request to persons using the mails that they use uniform stationery of some color upon which the address is legible and that no peculiarly shaped envelopes, cards, etc., be mailed.

WILL GIVE CITY POLICE VACATION WITH FULL PAY
Members of the police department, who were in the service during the war and who have returned to their places on the force, will be given their annual vacation of 15 days with full pay, even if they have just returned, according to a bulletin issued Tuesday afternoon by police chief J. R. Montgomery.

DIVORCE MORE EXPENSIVE.
St. Louis, Mo., Aug. 6.—Divorces, always expensive, are growing more so daily, records of the circuit court show. Court costs have not increased, but attorney allowances are larger, and even attorneys' fees are going up. The ability of the husband to pay is the chief consideration of courts in granting divorces, according to circuit court judge Landwehr. And the ability to pay now is greater with increased incomes.

—BIJOU—
TODAY

So The People May Know

The law of Sanitation demands that the housewife refrain from permitting her hands to come in contact with the kitchen garbage pail.

The garbage pail nuisance has been eliminated by the introduction of THE JUSTRITE GARBAGE PAIL. Here is how it is done. The one piece lid fits tightly. That lid is removed by a slight pressure of the foot. After the foot is removed, it quickly falls in place, thus eliminating the possibility of the hands coming in contact with the pail.

From an unhealthful, filthy eyecore the garbage pail has become neat appearing, sanitary and just as satisfactory as any other part of the household equipment. Made of heavy galvanizing and rustproof, handle of heavy metallic band that does not cut the hand.

Recreation In A City Should Be Prepared For

St. Louis Park Expert Says It Is Criminal Not To Do So.

(Continued from page 1.)

considered suitable for general use, or of benefit to all the city and not to a particular locality. In such parks little thing as a baseball diamond, driveway, walk, athletic fields, tennis courts, picnic grounds, flower garden, statuary, pavilions and other progressive cities that have made their own bathing beaches.

Water for such a lake here could be supplied from the city water system when completed, simply by diverting the water, none of which would be wasted. No other city in the country could so cheaply manufacture and fill such a lake.

Small Parks Added.
Several small parks should be added to the present number, and these should be so located that there would be little or no over-lapping of territory to be served. Each of these small parks should serve people living within comfortable walking distance, say about one-half mile. They should be combined with playgrounds, in which playground apparatus should be installed. The radius of service of the playground should not exceed one-fourth of a mile.

In every city the Art museum (if one exists), public library and branch libraries, gymnasiums in schools or "Y's" and other similar institutions are regarded as special recreational facilities, but they are sometimes located within or near the parks and playgrounds. Strictly speaking, such special facilities, of course, depend upon the measure of co-operation between the park and the individual feature and those who have in charge the general recreational work.

Takes Time; Begin Now.
It is evident that any plans for a complete recreational system must be made in progress, and even the most optimistic supporters of such plans could not expect to see them realized in a few years. However, the foundation can be laid, and the most important items of the program can be made realities.

Is El Paso among the most important plans for the bathing beach in Memorial park, and for smaller swimming pools in neighborhoods which now have no such facilities.
Every citizen should encourage sentiment favoring these improvements, because they are absolutely essential to the best development of the city, and will do more to keep the people healthy and happy than any other single movement.

Women Harder To Please Than Men In Marriages
Cleveland, Ohio, Aug. 6.—Women are more than twice as hard to please in the matter of husbands than men are as to wives.

At least divorce figures compiled for the past year by county clerk Hascroft would so indicate, and he declares "figures never lie."

During the past 12 months 2480 women sought to sever the tie that binds, while 1155 men asked the court to free them.

Abandoned Suitcase Has \$10,000 Worth Of Drugs
Clarkburg, W. Va., Aug. 6.—When Anita Gomez, a Spaniard, landed in New York a stranger asked him to guard a suitcase. Gomez watched faithfully for a number of hours, and when the man failed to put in his appearance he brought the bag here with him. When opened it was found to contain \$10,000 worth of heroin and other contraband drugs.

ACCUSED OF VIOLATING MANN ACT, WAIVES PRELIMINARY

Charged with violation of the Mann act, R. J. Smith was arraigned before United States commissioner Samuel Kelly Tuesday afternoon. He waived preliminary hearing and his bond was set at \$2500. Smith is alleged to have transported a woman here from Oklahoma City. H. R. Pickering also was arraigned before Kelly and charged with concealing the act. His bond for appearance before the federal grand jury was set at \$1000.

FRUIT IS ABUNDANT.
Not for several years has the fruit crop been so abundant above El Paso and all varieties are exquisitely flavored and beautiful in appearance. Peaches and pears are most in abundance and grapes will be in market in another week.

EL PASO IS GOING BACK THIS YEAR

Loss From Former Epidemic In Money Alone Is a Huge Sum.

(Continued from page 1.)

epidemics, and the United States will have suffered almost as much loss of human power as some European countries did through the war.

Always "Comes Back."
In support of his claim that the influenza epidemic will recur, Dr. Geier cites the record of the nearly allied disease of grippe, which appeared in epidemic form in 1899. It did not reach its peak until 1901, and two years after that it returned and destroyed thousands of lives. We have had two other epidemics of grippe or influenza, one in 1907 and the other in 1918, and both of these showed the same recurrent quality.

In the face of this literal certainty that we will have to combat influenza again next year, we are totally unprepared to do so. Medical science knows little more about influenza today than it did a year ago when the scourge was spreading like a prairie fire over all the world. For this reason, the doctors are making elaborate and extensive research into the cause and effect of the disease.

The American Medical association is promoting this research work. At its recent convention in Atlantic City, a resolution was adopted asking congress to appropriate \$1,500,000 to stimulate and encourage research work. This suggestion was acted upon the other day, when representative Fess, of Ohio, introduced a resolution in congress for the appropriation of that amount.

Civic Organizations Help.
Not only are the medical men of the country preparing for a reappearance of the disease, but civic organizations in different communities which undertook to care for the numerous victims of the epidemic a year ago, are also making plans against a recurrence of the malady.

In his letter to congressmen Fess, urging the federal appropriation, Dr. Geier says it caused half a million deaths in the country last year, and that it cost the insurance companies \$240,000,000.

The economic loss to the country, he says, is hard to estimate, but it is enormous. Economists agree that a human life is worth at least \$5000 to the state, so that the monetary value of the lives lost alone would be about \$2,500,000,000.

Add to this the working time lost by people who were sick, and the total economic loss to the country is somewhere between three and four billion. Dr. Geier cites these figures to show that it will pay the taxpayers to let congress spread some of their money preparing to prevent a recurrence of the flu.

TUCUMCARI TO HAVE BIG TIME AUG. 20, 21, 22
Tucumcari, N. M., Aug. 6.—This city will shortly begin taking on holiday attire for the fourth annual round up which will be staged here August 20, 21 and 22, and there will be three days of amusement to gladden the hearts of the youngsters and give the older folks an opportunity for recreation and enjoyment.

The main attractions will be bronco busting, steer roping, bull-dogging and other cowboy sports which will take place at the round up grounds each afternoon, but in addition to the round up performance there will be Clark's carnival company down town.

There will also be conducted under the personal direction of the amusement committee a big street dance every night. Local theaters are also booking special attractions for presentation during the round up and these, with other entertainments and the airplane flights by Hugh Garvie, will round out three days of merry making.

DISPLAY SHOWS WHAT FRUITS WILL GROW GOOD IN EL PASO
A sample of what El Paso can do in the line of fruit growing is on exhibition in the window of the Rio Grande Valley Bank and Trust company. The exhibit consists of fancy yellow plums of large size, bunches of green and blue grapes, figs and pears. All of this fruit was raised in the garden of T. M. Wagner, vice president of the bank, who lives at 4115 Trowbridge street.

EXPECT 65 COUNTY TEACHERS TO ATTEND ANNUAL INSTITUTE
The El Paso county teachers' institute will open the first Monday in September and will continue throughout the week. The sessions of the institute will be held in one of the district court rooms at the court house. At least 65 county school teachers are expected to attend the meeting. Miss Myra Winkler, county superintendent, is now arranging the program, which will be announced soon.

DEPUTY SHERIFFS RETURN FROM TRIP TO SEATTLE
Deputy sheriff R. E. Bryant and J. C. Stansel returned Tuesday afternoon from Seattle, Wash., where they had gone to deliver a prisoner wanted in Seattle on a charge of theft and bond jumping. The officers reported a pleasant trip, having traveled through all the northwestern states while on the journey.

There is a reason, why Lee Newman has made a success. Ask his clients.

HOOOSIER

—the Kitchen Cabinet that saves miles of steps

Which for You—Extra Hours in the Kitchen or More Time for Leisure?

THIS is a message of freedom to women—Hoosier's mastery of excess hours in the kitchen. It means relief from long hours spent in kitchen heat. Consider it well. For every housewife can have more time for leisure. She can have the spirit to enjoy it.

Hoosier brings every wanted time and labor-saving convenience and works the wonders that make this freedom possible.

\$1 Stands Between Kitchen Heat and Many Outside Enjoyments

Join the Hoosier Club and enjoy the summer days as is your right. Simply pay ONE DOLLAR and this automatic servant will be placed in your kitchen at once. Amounts so small you'll never miss them soon pay the balance.

Don't continue manual labor methods in your kitchen work. Don't be worn and weary every night. It isn't fair to yourself or your family. And the Hoosier Club makes it unnecessary. So come now and select your Hoosier. Come at once.
